DE KAART EN DE APPLICATIE CONFIGUREREN EN KOPPELEN

Met deze kaart

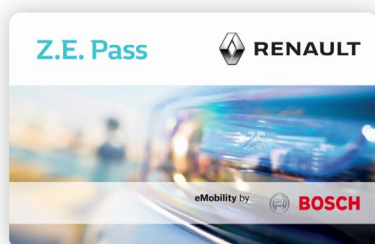

kunt u overal in Europa moeiteloos laadstations

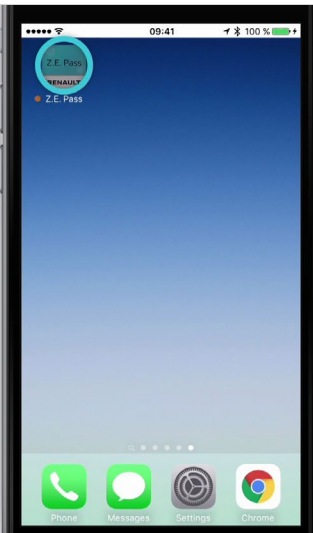

en de laadkosten betalen.

De kaart gebruikt
RFID-technologie om uw
account te identificeren.

*RFID-technologie is een methode om
gegevens op te slaan en op te halen met
behulp van de elektronische chip in uw kaart.*

U activeert de kaart door deze te
koppelen aan de 'Z.E. Pass'-app op
uw smartphone.

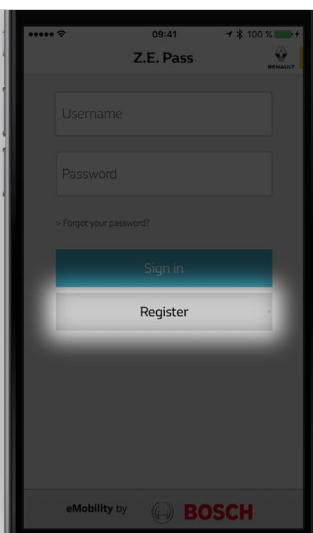

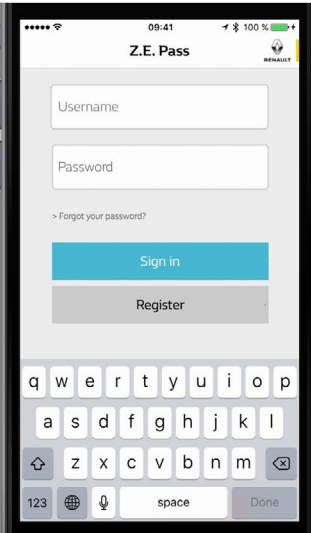

Zoek een station.

Betaal uw laadkosten.

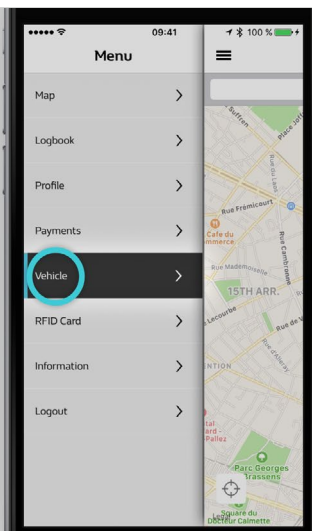

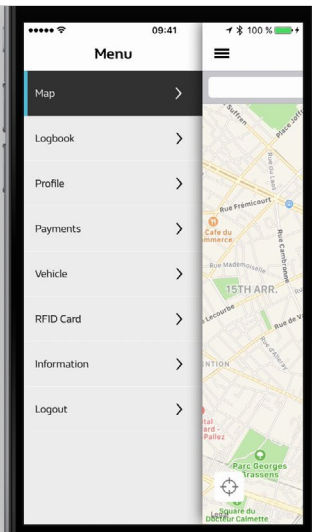

Start uw abonnement.

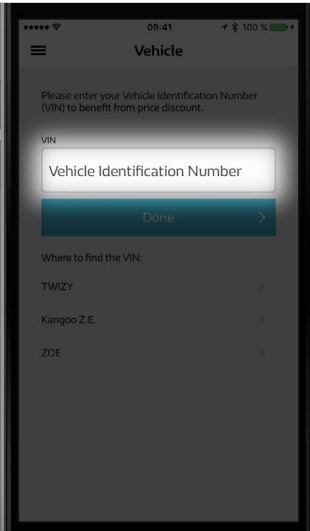

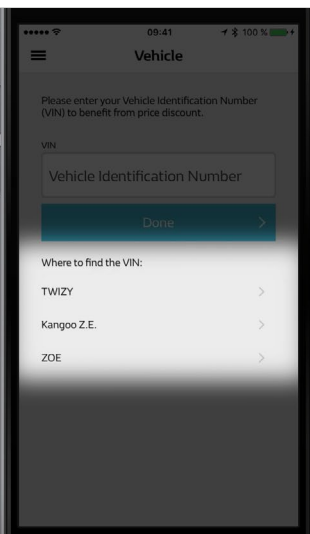

Zodra u geabonneerd bent, kunt u verbinding maken.

Het menu bevat alle functies.

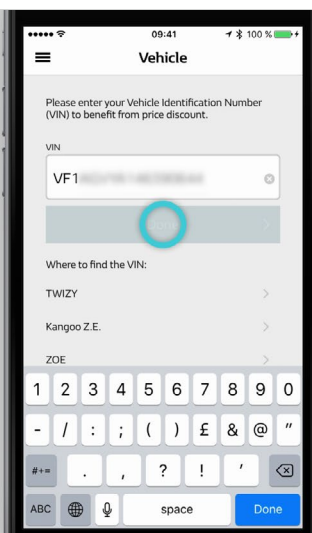

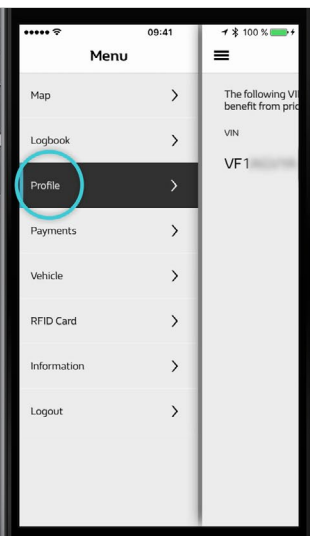

Als u Renault-korting wilt krijgen op uw laadkosten, voert u het serienummer van uw auto in.

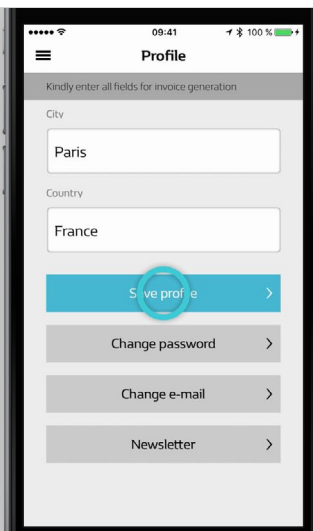

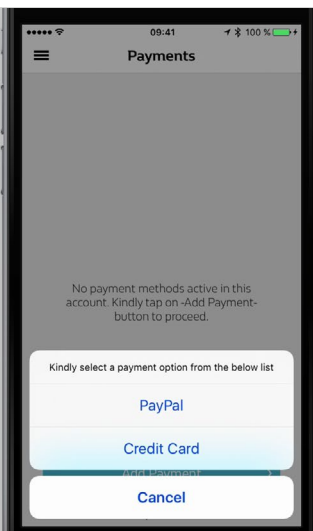

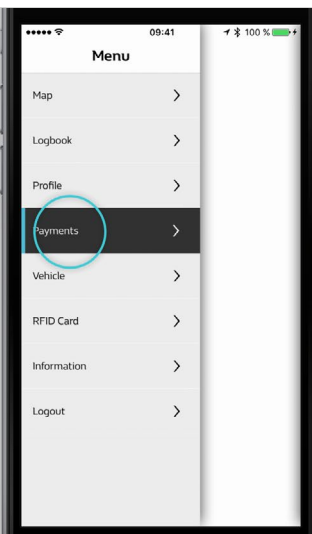

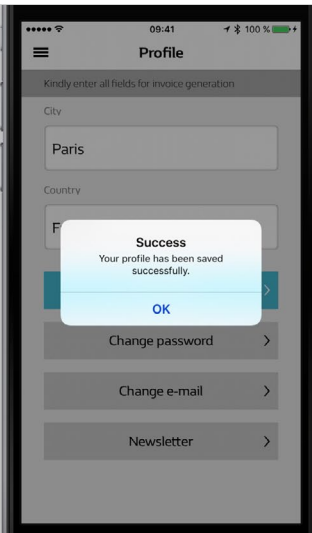

Selecteer uw auto om het serienummer snel te vinden.

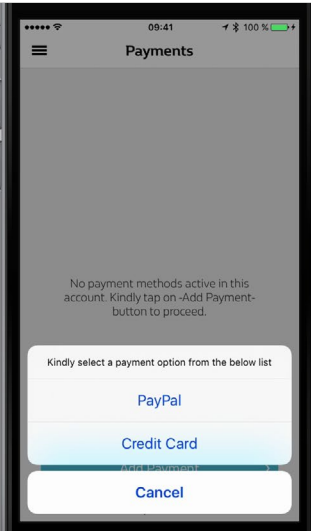

Sla uw profiel af voordat u afsluit.

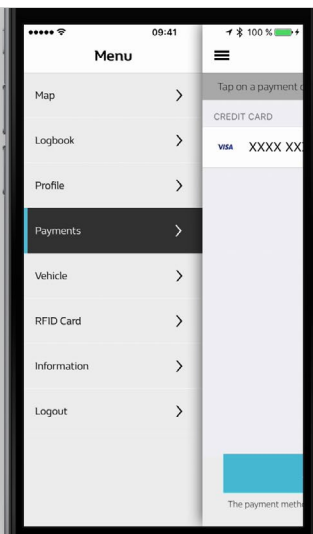

Er zijn twee betaalwijzen mogelijk.

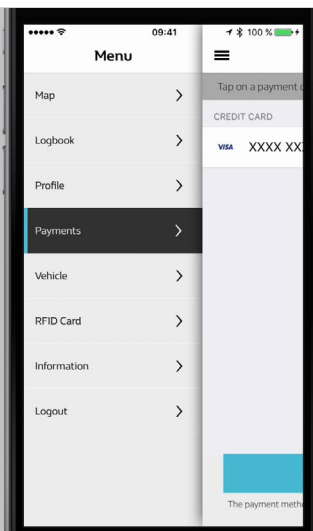

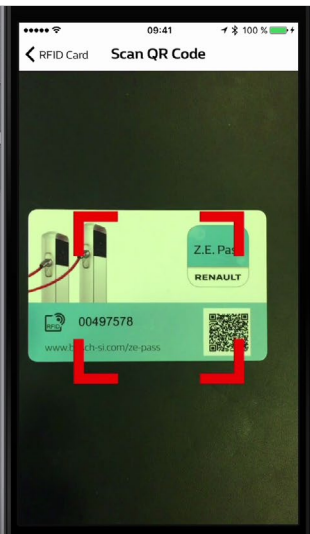

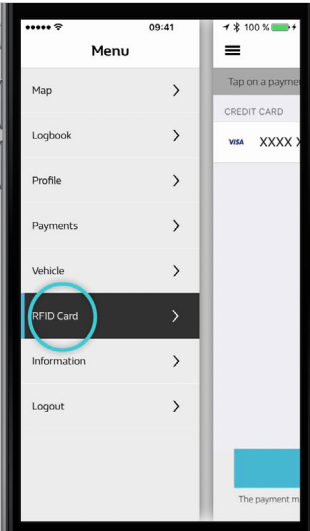

U moet minstens één betaalwijze toevoegen voordat u de laadstations kunt gebruiken om uw auto bij te laden.

Laatste stap voor activering van uw RFID-kaart.

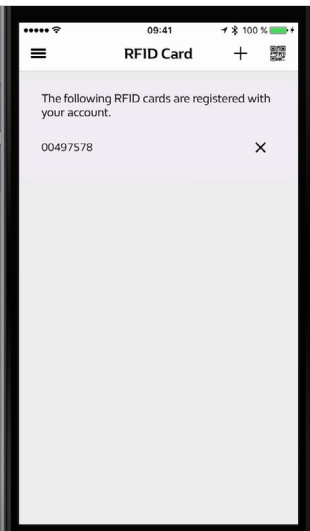

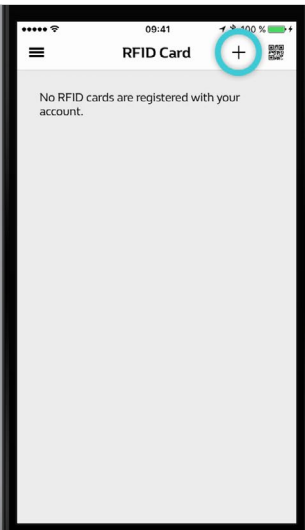

Koppel de kaart aan uw account.

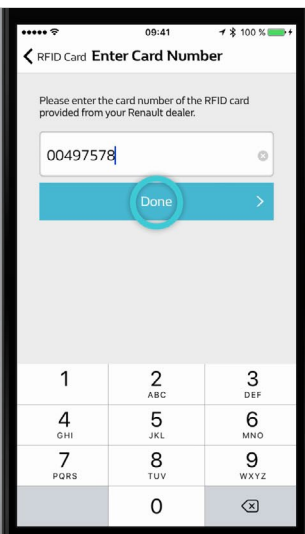

Scan de QR-code op de achterkant van uw RFID-kaart.

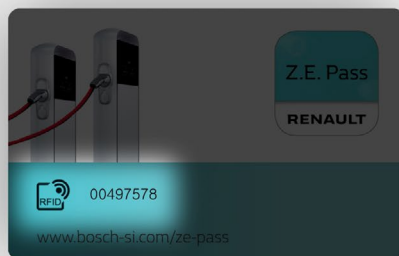

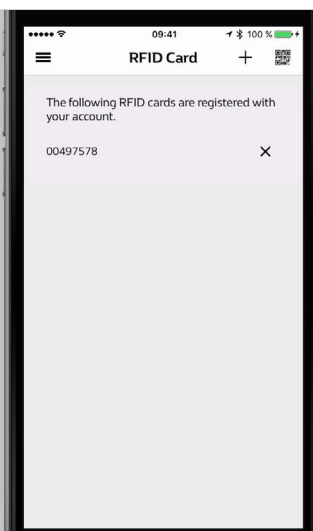

Als u handmatige invoer verkiest...

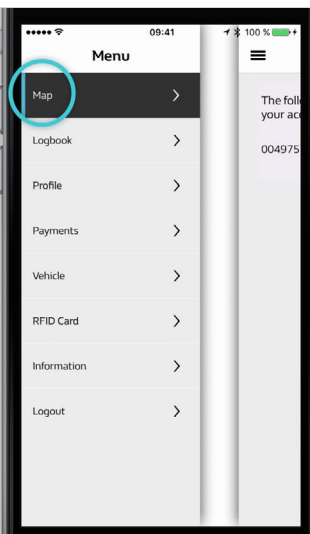

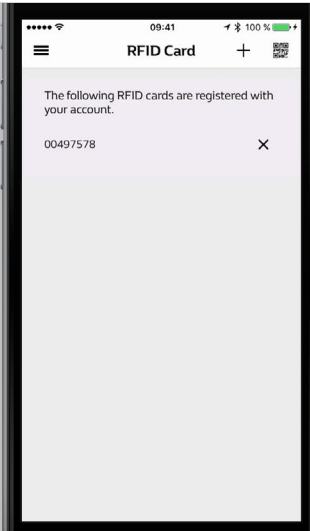

Voer het nummer in dat op de achterkant van uw RFID-kaart staat.

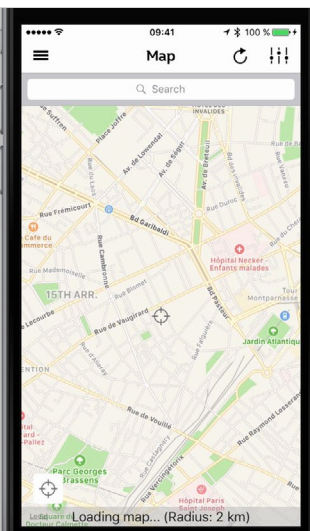

Uw kaart is geregistreerd.

U kunt nu gebruik maken van alle services van Z.E. Pass.

Z.E. Pass is geconfigureerd.

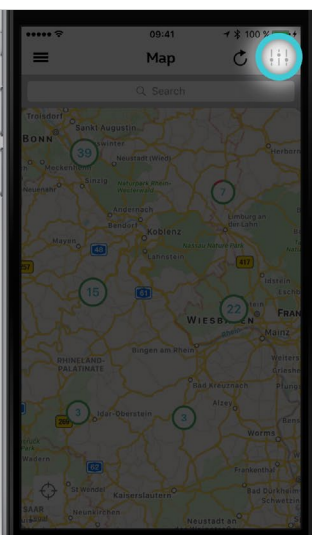

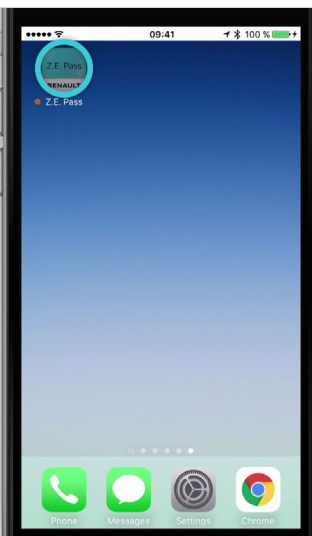

U kunt de applicatie nu gebruiken.
